

Jennifer L. Walden, MD, PLLC

BOARD-CERTIFIED PLASTIC SURGEON · AUSTIN, TEXAS

PATIENT GUIDE · ADVANCED SKIN RESURFACING

Aurera

1927 nm Thulium Laser

Precision for the face. Speed for the body. Brighter, smoother skin with minimal downtime.

FRACTIONAL · NON-ABLATIVE · FACE & BODY · SAFE FOR FITZPATRICK I–VI

Aurera delivers controlled fractional laser energy to the superficial layers of the skin, creating microscopic treatment zones while leaving surrounding tissue intact. Your skin does the rest — shedding sun-damaged cells and renewing itself for a clearer, more even, more luminous complexion.

What Aurera Treats

PIGMENTATION

- Sun spots & age spots
- Melasma
- Freckles

TONE

- Uneven skin color
- Redness
- Sallowness

TEXTURE

- Enlarged pores
- Rough skin
- Acne scarring

SCARS

- Acne scars
- Surgical scars
- Stretch marks

REJUVENATION

- Fine lines
- Skin dullness
- Photoaging

SCALP & OTHER

- Hair support protocols
- Scalp rejuvenation
- Actinic keratoses

How Your Treatment Works

01

Assessment

Your skin and goals are reviewed to build a personalized plan.

02

Comfort prep

Skin is cleansed and topical numbing is applied.

03

Laser delivery

Precise fractional energy is passed over each area.

04

Renewal

Superficial damaged tissue naturally sheds over days.

05

Results

Brighter, smoother skin keeps improving for weeks.

Treatment Areas

FACE

NECK

CHEST

EYELIDS

HANDS

ARMS

BACK

LEGS

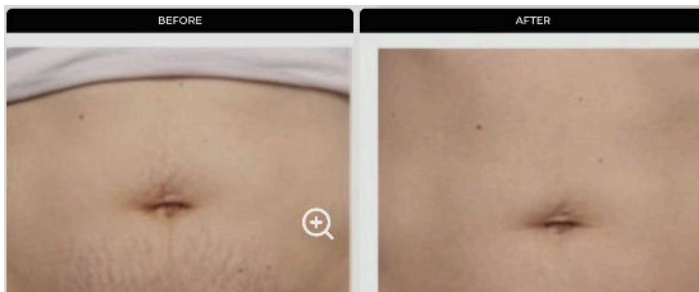

SCALP

What to Expect

Downtime. Minimal. Expect temporary redness, warmth and mild swelling, then dryness and a bronzed, sandpaper-like feel as pigment lifts and skin sheds over 3–7 days.

Results & sessions. Improvement builds over 4–12 weeks as skin renews. Some patients need a single treatment; others benefit from a customized series. Aurera can be paired with Junera or a surgical procedure.

Real Results

Abdomen, stretch marks — 4 treatments, 6 months · GAIS 6 “Much Improved”

Midface, acne scarring & texture — 3 treatments, 12 weeks · GAIS 7 “Very Much Improved”
